---

The steps may slightly vary depending on the car design.

REPLACEMENT: POLLEN FILTER – FORD FOCUS MK2. TOOLS YOU MIGHT NEED:

- Torx bit T20
- Drive socket # 8
- Drive socket # 10
- Ratchet wrench
- Flat Screwdriver

Replacement: pollen filter – Ford Focus MK2. AUTODOC recommends:

- Replace the cabin filter at least once every six months, in early spring and autumn seasons.
- Follow the terms, recommendations and requirements of the part operation provided by the manufacturer.
- If the air flow into the cabin has sharply reduced, replace the filter before a scheduled maintenance.
- All work should be done with the engine stopped.

REPLACEMENT: POLLEN FILTER – FORD FOCUS MK2. RECOMMENDED SEQUENCE OF STEPS:

1

Remove the caps from the fasteners of the plastic side panel. Use a flat screwdriver.

2

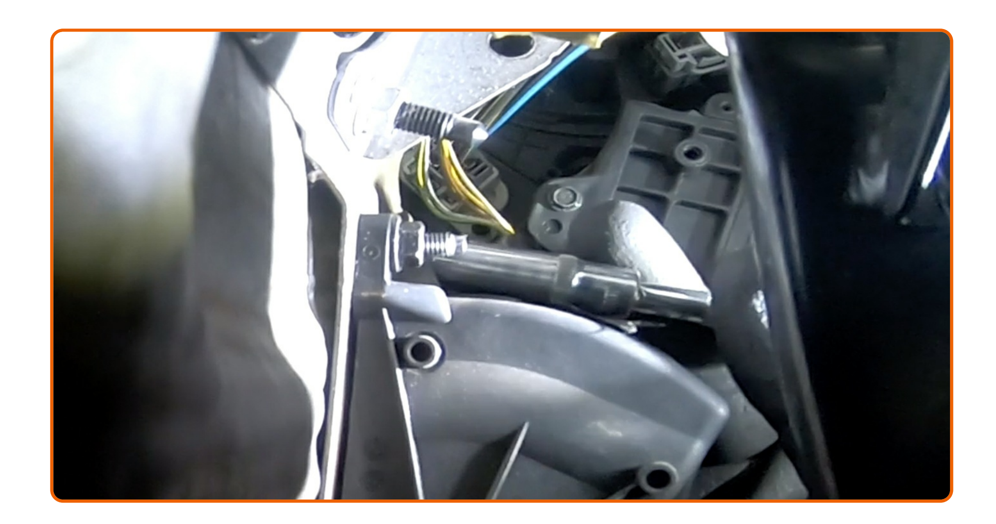

Unscrew the fasteners of the side plastic trim panel. Use Torx T20.

3

Remove the side plastic cover.

4

Unscrew the fastener of the accelerator pedal and move it aside. Use a drive socket #10. Use a ratchet wrench.

5

Detach the accelerator pedal connector.

6

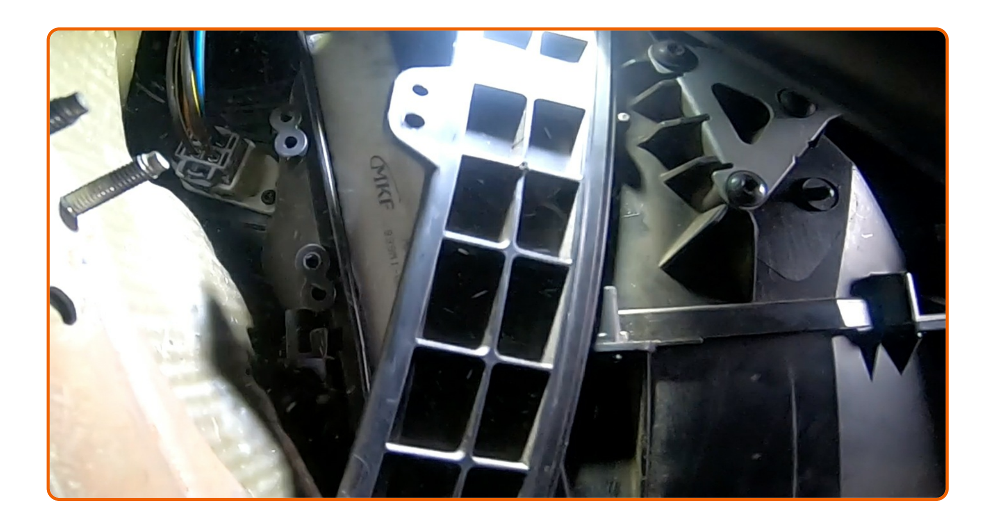

Remove the accelerator pedal.

7

Unscrew the fasteners of the cabin filter housing cover. Use a drive socket #8. Use a ratchet wrench.

8

Remove the cabin filter housing cover.

AUTODOC recommends:

- Replacement: pollen filter – Ford Focus MK2. Do not use excessive force when removing the part as this may damage it.

9

Remove the cabin filter.

Replacement: pollen filter – Ford Focus MK2. AUTODOC recommends:

- Do not attempt to clean and reuse the filter - it will affect the quality of air cleaning inside the car.

10

Install the cabin filter to its mounting seat.

Replacement: pollen filter – Ford Focus MK2. AUTODOC experts recommend:

- Check out the correct location of the filter element. Do not skew.
- Follow the air flow direction arrow on the filter.
- Ford Focus MK2 – It's important to only use high-quality filters.

11

Reinstall the cabin filter housing cover.

12

Screw in the fasteners of the cabin filter housing cover. Use a drive socket #8. Use a ratchet wrench.

13

Attach the accelerator pedal connector.

14

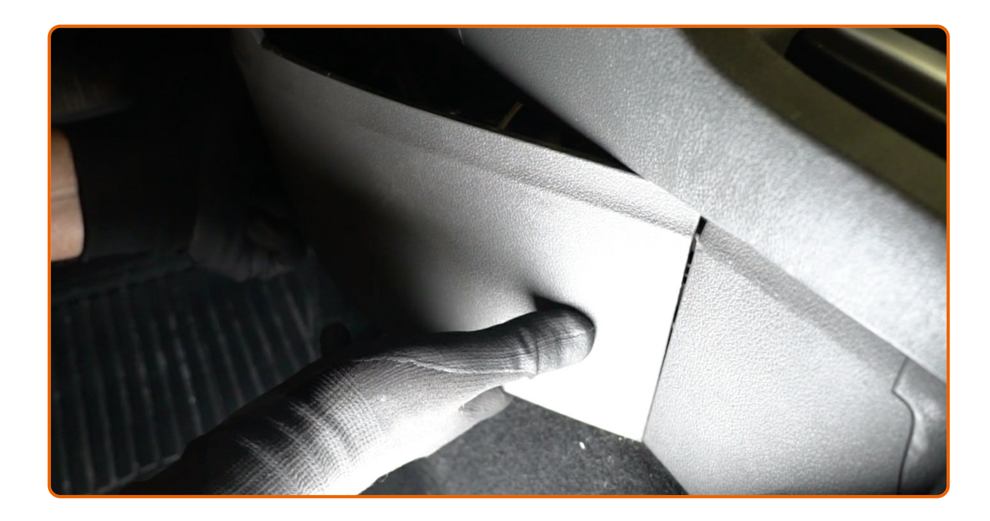

Reinstall the accelerator pedal.

15

Return the accelerator pedal to its initial position and screw in its fastener. Use a drive socket #10. Use a ratchet wrench.

16

Install the side plastic panel.

17

Screw the fasteners of the side plastic trim panel. Use Torx T20.

18

Reinstall the caps on the fasteners of the plastic side panel.

19

Switch on the ignition.

20

Switch on the air conditioning system. This is necessary in order to make sure that the component operates properly.

21

Switch off the ignition.
